

Section 19 Flood Investigation Community Meeting

Galhampton Village Hall

Hear from Somerset Council's Flood Investigation Officer about the progress being made with the "Section 19" report into flooding in your area last May, and the timetable for completing the report [what will happen next]. All emails, photos, videos, reports and other communications received by the Council about the flooding have been studied: this is your opportunity to check that the Council has properly looked at and understood what happened and for you to make any necessary corrections or additions. Checking that the full facts are known is a vital step before the technical analysis phase of the report process can begin. So, all interested residents and owners of businesses based in Yarlington, North Cadbury, Compton Pouncefoot & Blackford and South Cadbury & Sutton Montis Parishes are invited to attend. We look forward to seeing you.
