

Rights of Way Report July 2025

WN19/105 (Ridgeway Lane)

Eve Wynn has organised a badger survey in-house, with the Highways contractor, Kier Construction. A purchase order has been raised, and the ecologists will put in place the relevant cameras etc to monitor any badger activity. I am uncertain if this has now happened. Once she has received feedback from the ecologist, she will then be in a position to seek quotes from 3 contractors.

WN19/54 Gate and stile

The Newt has agreed to remove the old stile and then replace it with a pedestrian gate.

WN19/57a Stile

It has been reported that the stile between Brookhampton Farm and Anne Pilditch's field is broken. One of the side posts has broken, it and the two rails attached are free floating. The lower step is OK but clearing the rails above it is difficult.

The issue of clearing paths in crops has receded in many places since harvesting has taken place. Landowners are still reminded to pay attention to this, however.

Please can all members of the parish continue to report any issues via the Explore Somerset website - <https://roam.somerset.gov.uk/roam/map#>
